TECHNOLOGY-DRIVEN SUPPLY CHAIN SOLUTIONS

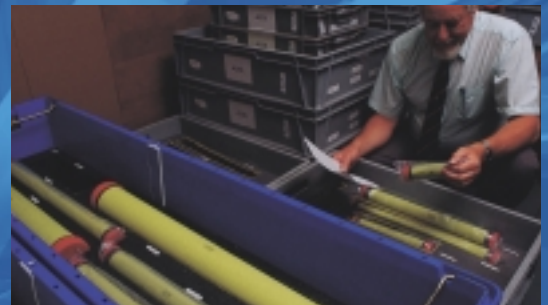

'SKILLTYPE' Logistics

Fully Integrated Logistics Services – thousands of components direct to line-side

The aerospace market operates in such a way that our customers frequently demand short lead-time deliveries. As a result a range of techniques have been developed and custom modified to ensure maximum customer benefit.

- Integrated material Logistic centres
- High-volume kitting
- Packaged services
- Advanced supply-chain management expertise
- Direct line feed (DLF)
- Faxban and e-ban services
- Consignment stocking
- Just-in-time deliveries
- Full delivery logistics fleet
- Global research
- 24/7/365 service
