

TECHNOLOGY-DRIVEN SUPPLY CHAIN SOLUTIONS

'SKILLTYPE' High-speed machining

Capabilities include:

- **CNC High-speed 5 axis machining (4 units)**
- **CNC High-speed 5 axis 3.5m and 4.5m long-bed machining**
- **CNC Machining of aluminium extrusions**
 - No templates or patterns
 - 20,000 rpm spindle speed
 - Unlimited extension length
 - Limited floor space
 - No fixtures
 - Short set-up and lead times

Example:

Railtrack 383 ins long
Conventional machining time – 8 hours
Modig machining time – 45 minutes.
