

TECHNOLOGY-DRIVEN SUPPLY CHAIN SOLUTIONS

'SKILLTYPE' Heat Treatment and Chemical Etching

Capabilities include:

- **Solution treatment, precipitation and super anneal**
- **Rapid quench air furnaces**
 - Ambient to 600°C
 - Maximum chamber size: 5000mm x 4000mm x 4000mm (16/14ins x 13ft x 13ft)
- **Rapid quench salt baths**
 - Maximum chamber size : 2745mm x 915mm x 760mm (9ft x 3ft x 2ft 6ins)
- **Water and polymer quenching**
- **Large scale 'walk-in' freezer facility**
- **Type 1 and Type 2 chemical etch**
 - To a maximum of: 5180 mm x 1525mm x 2135mm (17ft x 5ft x 7ft)
 - Alkaline cleaning
 - Nitric pickle facility
 - Mask application booth: 330sq.m (1,100 sq.ft)
